City of Westland offering "coolest" escape from Wednesday's 98 degree weather

2022

Westland, MI- June 15,

With the weather in the upper 90s, and everyone desiring to move past the disruptions and isolation of the COVID-19 pandemic and enjoy all that summer has to offer, the City of Westland is going all out to ensure that Wednesday, June 15, 2022, is an unforgettable "coolest" day of fun and relaxation for family and friends at its state-of-the-art Tattan Park at 1901 N. Carlson.

The fun begins at 5 p.m. with a grand re-opening of the completely rebranded H2O Zone Splash Pad into a dinosaur themed attraction.

The Community Gathering begins at 5:30 p.m. where guests will savor free hot dogs, chips, water and popcorn, get information on various community initiatives, and sit back and watch **The Good Dinosaur** movie at 7:00 p.m. Admission for this event is FREE, including entrance to the H2O Zone. The concession stand will be open for additional purchases.

By making the event free, the city is removing the cost barrier to participation in the summer fun.

"We are offering all Westland residents a full sensory experience at this free admission community gathering. There could be no better venue than the relaxing, stress-free Tattan Park with beautiful flora, amazing water splash, and great fun activities for the whole family. My team and I will be there to share the memorable "coolest" moments with residents escaping the 98 degree Wednesday

weather,” says Westland mayor, William R. Wild, thanking North Brothers Ford, Independent Carpet One, Community Financial, and Parkside Dental for providing sponsorship for the event.

The nicely landscaped and easily accessible 10-acre Tattan Park is replete with selfie stations for people of all ages and offers plenty of space for different types of family-friendly activities. Its neatly-paved walk paths, pavilions with picnic tables, well-appointed large play structures, exquisite splash pad and thoughtfully designed pond make it one of southeast Michigan’s summer favorites.

In a recent study commissioned by [Mother’s Cookies](#), 62% of the 2000 respondents said they have run out of ideas on keeping their kids entertained during summer months, which makes the outdoor event even more relevant.

“Residents tell me they appreciate these community gatherings, and each year, we try to make them better. So, they will see a number of additions this year, all geared toward making everyone have the best of summer fun within city limits, and keep the community spirit alive,” concludes Mayor Wild.
