

LDFA 2023 Progress/Accomplishments

The City of Westland Local Development Finance Authority continued making progress on the goals and objectives laid out in the currently adopted development plan throughout 2023. In June of 2020, the LDFA and Westland City Council approved an amendment to extend the life of the plan to December 31, 2040. This extension of the plan serves as guidance for the LDFA's direction moving forward. In 2021, the LDFA oversaw the completion of the reconstruction of Manufacturers and Enterprise Drives, with a total cost of \$1,030,000. Tax capture will continue to be used to pay off the balance of this project.

2023 Projects
